

## REMARKS

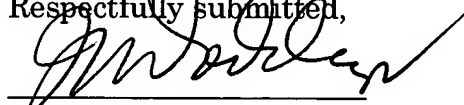

### Amendments to the Specification

Applicant has amended the application to correct clerical errors in the cross references to related applications. Namely, this Preliminary Amendment corrects clerical errors in the description that claims benefit of co-pending U.S. Patent Application Serial No. 60/438,521 filed January 8, 2003, entitled "Shellable Child Resistant Closure Container with Positive Lock Mechanism." By typographical error, the serial number referenced in the application as filed was incorrectly stated as 60/428,521 whereas the correct serial number of the provisional application is 60/438,521.

Applicant respectfully requests an updated filing receipt be mailed to Applicant that shows the domestic priority as claimed by Applicant.

The Commissioner is authorized to charge any deficiency or credit any overpayment associated with the filing of this Response to Deposit Account 23-0035.

Respectfully submitted,
